

FinLogon Personal Edition (PE)

Futronic FinLogon Personal Edition (PE)

is MS Windows software that can accept image captured from the Futronic Fingerprint and Finger-vein Scanner, extract its physical characteristics (minutiae) and match with the pre-registered/stored data to control the Windows Logon on any PC. So fingerprint and finger-vein can be used to logon computer and has the following advantages over the traditional username and password logon:

- Human finger print and vein is unique
- It can't be stolen by others
- It wouldn't be forgotten
- It is with user all the time

This is free software from Futronic. If you already have Futronic Fingerprint and Finger Vein Scanner, you can download FinLogon PE free from Futronic web page and start to use it now.

FinLogon PE users can also make use of two free software tools from Futronic, *One Touch Password Filler* and *Fingerprint File Encryption*, which come in the **FinLogon Add-on pack**, to have a more secure and convenient computing environment
